

clear your ears so you can hear

OFFICE

Ideal for children and adults.

The EarPopper is designed for people who suffer from ear problems caused by colds, allergies, sinusitis, rhinitis and elevation changes (for example, air travel or scuba diving). The EarPopper clears the ear naturally with air – it's that easy!

No drugs. No surgeries.

Now you can get instant relief from common ear problems and restore your hearing with the EarPopper. This easy-to-use prescription device is the safe, simple way to get rid of fluid or pressure build-up in your middle ear. Treatment can be performed in your doctor's office with the EP-3000 Professional Version and at home with the EP-2000 Home Version (RX Only).

Restores Hearing in 85% of Patients.

^[1] In a four year study sponsored by the National Institutes of Health, 85% of children diagnosed with hearing loss from persistent Otitis Media with Effusion (OME) who where treated with the EarPopper regained their hearing. The EarPopper restored their hearing to normal without antibiotics or vent tubes.
